Technical Requirements Latest revision August 1, 2017

The following is a Technical Rider for Duwende Music LLC.

CONTACTS:

Technical Director

Mike Jankowski, 212-374-9454 Email: duwendemusic@gmail.com

Duwende will provide their own backline wireless microphones (Shure ULXD2 G50 band), in-ear monitors (Shure PSM900 K1 band), and digital mixer (Mackie DL 1608) unless otherwise noted. The mic signals will be Y-split to the provided Mackie mixer for IEM, and to the purchaser provided FOH console.

Provided by Purchaser

PA

Please provide a full range, three-way or four-way stereo PA, including subwoofers on deck (preferred manufacturers: *d&b, L'Acoustic, EAW, Meyer, Martin or equivalent*). Subwoofers should have the option to be sent an aux feed. The Venue shall provide all appropriate personnel needed for its set up and operation.

Mixer

- One (1) 16 or 24-channel mixing console with 4-band parametric EQ per channel.
(Preferred mixers: *Roland m200i, M480, M-5000C, and M-5000*
– *other approved brands: Yamaha, Allen & Heath, Soundcraft*)
- One (1) Reverb unit (approved brands: *Lexicon, Yamaha or equivalent*)
- One (1) Tape delay unit (approved brands: *TC Electronic, Yamaha or equivalent*)
- One (1) Stereo 32-band EQs

Stage

Stage should have a minimum of 16' wide x 12' deep x 8" high playing space, with a minimum 8' height between the stage and ceiling, and a maximum distance of 6' between stage and closest audience member.

Lighting

Please provide a bright front-wash to cover the width of the stage, with color filled back lighting. The audience should dimmable to black. Duwende is flexible with lighting requirements -- please contact the Duwende's technical director with any questions.

Sound System

The Sponsor and Venue should make provisions for sound to be mixed from the middle or directly in back of the audience, and provide enough space for setup of Duwende's backline receivers and mixer offstage.

Microphone stands, etc.

Duwende will bring their wireless mic rig -- please provide six (6) mic stands. In addition, please provide six (6) bar-height stools with matching color/style.

Sound Check

Duwende requests a minimum of 30 minutes of load-in and setup time and 1 hour for a closed-door sound check to be concluded at least 1 hour prior to doors open.

Misc.

Please provide twelve (12) AA batteries (Energizer and Duracell only).
