

Stage-Setup

Requirements - provide blue items

1 On-Stage Control Desk

- Power cable 110/220 volt for Marco's laptop
- Audio cable XLR mono from Marco's laptop to audio mixer
- 1 Table & 1 Chair ideal table size is 24 inches x 60 inches
- HDMI type cable from Marco's computer to your screen(s)

2 Magic Carpet Area [Watch the video](#)

- Flat area 4x4 meter (13x13 feet) for Marco's magic carpet
- Minimum height - 3,5 meter
- Even & soft daylight colour lighting (5000-6500k)
- non-reflective, neutral (black) stage flooring

Important Note: The control desk must be powered and placed on stage 3-5 minutes before Marco's presentation. Please provide ample space for pre-set backstage stage-right at a location from where Marco's setup can be carried onto the stage. Required video format is 1920x1080 / 60hz progressive (with 16:9 aspect ratio screens or PIPs).

Technical Requirements

On-Stage

Drones require non-reflective, neutral (black) stage flooring, a minimum fly space height of 3,5 meters (11.5 feet). The magic carpet requires a flat area of 4x4 meter (13x13 feet) Stage height should be sufficient to provide good sight lines for all audience members.

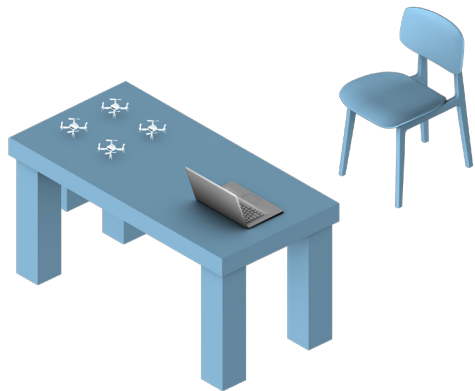

Setup Time

Setup and cabling of magic carpet requires 15-30 minutes. Strike of the magic carpet requires 1-2 minutes.

Props

On-stage props to be provided:

- 1 chair (for Marco)
- 1 off-stage table (ideal size is 24 inches x 40 inches)

Microphone

Please provide one wireless headset type microphone and receiver, to be controlled by your sound technicians.

Lights

Drones and control desk require even & soft daylight colour lighting (5000-6500k) with the ability to control levels.

Cabling

Power, video and audio cables coloured in blue on page one must be provided by you.

Safety

- Drones operate autonomously (no radio signals)
- Drones are light weight and small (62gr)

Please provide authorizations & protection net (if required by local regulations).

Q&A

How many drones can be in a performance?

The standard performance package includes 10 drones. However, there are no limitations. The maximum number of drones depends on the magic carpet size. Larger carpets will require longer setup times.

Can the performance be customized to my creative needs?

Absolutely, we love to work with you to create a customized performance that meets your communication objective.

Can the drones perform outdoors

Yes. Our system will work outdoors without a magic carpet setup. Outdoor performances are weather depended and permit regulations in different markets vary. Please contact us to discuss your requirements.
