Additional Requirements

For Marco to speak at our event you will need to provide the following:

- [stage](#) with access to the audience (stairs)
- [projection, plasma or LCD screens](#) suited to room size
- [sound system](#) (mixer - amp - speakers suited to room size)
- one [wireless headset type microphone](#) and receiver
- one [chair](#) and a [small table or demo desk](#) (on stage)
- [all cabling for video, audio and power](#) (details on page 1)

Details

Stage (ideal conditions)

Height should be sufficient to provide good sight lines to within 28 inches of the floor for all audience members. The performance is to include audience participation, this requires a safe, wide stair unit must be provided at the front of the stage for performer and audience access.

Props

on-stage props to be provided by presenter:

- 1 [chair](#) for Marco
- 1 [on-stage table](#) with [black table top](#) or black table cloth (ideal size is 20 inches x 60 inches)

Microphone

please provide one [wireless headset type microphone](#) and receiver, to be controlled by presenter's sound technicians.

Lights

Marco requires standard speaker type lighting with the ability to control and pre-set levels and provide a full blackout.

Cabling

Marco uses three separated demo locations on-stage for his talk. Cables colored in [blue](#) must be provided by your AV vendor.

Masking for Magic Projection

Please provide appropriate [masking for Magic Projection](#) to fit your scenic design. Minimum dimensions: 30 x 15 x 11 inches
