

REUEL

CLASSICAL CROSSOVER ARTIST

KEYS ON FIRE

A VISUAL PIANO EXPERIENCE

Reuel is proud to announce his new touring show **Keys On Fire** featuring virtuosic piano performances accompanied by a rock band, string duo, and electrifying LED visuals.

Keys On Fire explores new realms of Rock, Pop, and Crossover with a style influenced heavily by Reuel's upbringing as a classical pianist and 15 years composing film-scores and producing electronic dance music. The genre-merging show arrangements include: **Aerosmith, Queen, Tchaikovsky, Elton John, Bon Jovi**, and **Beethoven** to name a few, along with original works from Reuel's Piano/EDM album **Transformation**.

Reuel's creative vision includes a dedicated focus to the backing LED stage visuals. Each song is combined meticulously with captivating visuals to bring audiences deeper into the music through stunning scenes of Nature, Space, sound reactive visualizers, particle generators and more.
