REUEL™

---

CROSSOVER PIANIST & COMPOSER

## BEHIND THE MUSIC

Reuel's wide-ranging talent as a pianist gives every note he plays a unique resonance. He has years of experience in the worlds of classical, pop, film scoring and electronic dance music, allowing him to move smoothly between genres. Compared with artists like Maksim Mrvica, The Bond Quartet, Vanessa-Mae, Lindsey Sterling, and 2Cellos, Reuel loves to stretch the imagination of audiences with medley arrangements, original compositions, and thrilling performances.

"My live shows always vary in style, size and structure," Reuel explains. "I perform concerts of solo classical material, as well as solo pop piano with live string players and custom synced backing tracks. I have a five-piece pop band and a classically trained trio, with a cellist and violinist. I customize each show to what is needed, or affordable, for the venue or client. I'm continually adding more original music to my shows, along with creative arrangements of popular music and I am always looking for ways to present my music in the biggest, most straightforward fashion."

To that end, Reuel has been working on two albums. Transformation will combine electronic dance tracks with piano melodies played in a classical style, while First Snow is a record of Christmas music that will be released by Lucky Hound Records in time for the Holiday Season of 2018.
